HAIKOU CITY, China, March 17, 2009 - China Pharma Holdings, Inc. ("China Pharma") (OTC Bulletin Board: CPHI), which develops, manufactures, and markets specialty pharmaceutical products in China, today announced financial results for the year ended December 31, 2008.

For the 12 months up to December 31 2008, the Company continuously demonstrated consistent top and bottom line growth and improved financial performance. The increase in company revenue exceeded 53.9%, reaching approximately \$50.97 million, compared with \$33.19 million of 2007. This rapid growth was accounted for by increases in sales of existing products, and increases in the share of sales by new products. China Pharma is working closely with several pharmaceutical research institutions to develop and further launch more products to meet our

customers' needs. Our focus is to create a steady increase to the bottom line. We have seen in the past that the diversified portfolio and distribution channels are keys to company operation. Diligent exploration of potential innovations of the pharmaceutical industry and of the domestic market is essential to create value for our shareholders.

For the year ended December 31 2008, sales of the Company's flag-ship product PuSen OK increased by 76.6%, and the sales of other products also improved dramatically: year-on-year Alginic Sodium Diester increased by 75.5%, Granisetron increased by 60.47%, Clarithromycin increased by 57.4%.

The financial operational performance for the 12 months ended December 31, 2008 was clearly improved compared to the 12 months ended December 31, 2007. Gross profit for 2007 was approximately \$15.57 million, and the gross profit margin was 46.9%, while the 2008 gross profit was \$25.29 million and the gross profit margin increased to reach 49.6%. The gross profit increased by approximately \$9.72 million, or 62.5% from 2007 to 2008, which was mainly due to the continued revenue growth in 2008 and increased cost control, and also to the continued launch of new products.

The operating income for the year ended December 31, 2008 was \$19,730,304, compared to \$12,251,229 for the same period of 2007, an increase of \$7.48 million, or 61.1%. The operating gross margin was 38.7% and 36.9%, for fiscal year 2008 and fiscal year 2007, respectively.

Due to substantial increases in sales revenue and gross profit, and effective cost control in 2008, the net income for the year ended December 31, 2008, excluding the effect of foreign exchange transactions, increased to approximately \$17.83 million, which was 39.1% higher than the \$12.82 million for the year ended December 31, 2007. The net profit margins were 35.0% and 38.6% respectively in fiscal year 2008 and fiscal year 2007. The decrease in net profit margin was due to the effect of the increasing income tax from 0% to 9%. The Company did not have any income tax in 2007, when the Company was still in the preferential tax period of 0%, while in 2008, due to the Company's location in the special economic zone of Hainan, the Company was granted a favorable rate of 9%. Excluding the effect of the increasing income tax, net income increased 54.4%.

Earnings per common share for the 12 months ended December 31, 2008, increased 28.0% reaching \$0.44 per share compared to \$0.35 per share for the 12 months ended December 31, 2007.

### **Analysis of balance sheet and cash flow statement**

As of December 31, 2008, the Company possessed cash and cash equivalents of \$6,927,149, which represented 9.2% of total assets; compared with \$1,830,335 in the same period for 2007, which represented 4.2% of the total assets. Compared with the position of December 31, 2007, this was an increase of \$5,096,814, or 278.5%. This was a combined result of an improvement in net cash generated from operating activities and an increase in net cash proceeds from financing activities.

## China Pharma Holdings, Inc.

In the year ended December 31, 2008, the operating activity cash flow increased to \$6.54 million, a substantial increase of 222.6%, compared to \$2.03 million for the same period in 2007. The main reason was the increase in revenue and net income, and improvement in accounts receivable collection.

China Pharma's President and CEO, Ms. Zhilin Li said, "We achieved the successes stated above, despite the global economic crisis and challenges within the Chinese Pharmaceutical industry. The Chinese Health Care Reform will be implemented in 2009. The build up of a national basic healthcare system will have a deep impact on the entire Chinese society and on the healthcare industry. We will continue to launch strong innovative products, and adapt to the changing policy environment with our operating model and diversified portfolio. We will explore the opportunities in this environment and work for a better future!"
