

China Pharma Holdings, Inc. Reports First Quarter 2009 Financial Results and Corporate Updates

- Revenue Increased 10.9% Y-O-Y to \$13.0 million –
- Great Potential for New Products and Continued Strong Demand for Existing Products –
- Increased Marketing Efforts and Distribution Expansion to Drive Future Revenue –

HAIKOU CITY, China, May 15, 2009 - China Pharma Holdings, Inc. ("China Pharma") (OTC Bulletin Board: CPHI.OB), which develops, manufactures, and markets specialty pharmaceutical products in China, today announced financial results for the first quarter ended March 31, 2009.

First Quarter 2009 Financial Highlights

- Revenue increased 10.9% to \$13.0 million from \$11.7 million in the first quarter of 2008
- Gross profit increased to \$5.9 million from \$5.8 million in the first quarter of 2008
- Gross margin was 45.6% from 49.6% in the first quarter of 2008
- EPS was \$0.09, compared to \$0.11 in the first quarter of 2008

First Quarter 2009 Business Updates

- Appointed Mr. Frank Waung to Chief Financial Officer, and nominated Ms. Heung Mei Tsui to the Board of Directors.
- Initiated clinical trials for the generic version of the leading hypertension drug Candesartan.
- Received the SFDA's approval to produce Tiopronin Enteric-Coated Capsules, which is listed in the National Medical Insurance Program, thus allowing patients to obtain reimbursement.
- Dried powder production line expansion completed and production commenced.

Revenues for the first quarter of 2009 increased approximately 10.9% to \$13.0 million, from \$11.7 million in the first quarter of 2008. The increase in revenues was due to an increase in sales of existing products as well as sales from recently-launched products. Revenue performance was offset by uncertainty related to China's healthcare reform plan, as bulk buyers delayed purchase orders in anticipation of lower pricing and subsidies from the new insurance catalogue and essential drug list, which are not yet published.

Gross profit for the first quarter of 2009 grew to \$5.9 million from \$5.8 million in the first quarter of 2008. Gross margin was 45.6%, compared to 49.6% during the first quarter of 2008. Gross margin performance reflects increased sales of lower margin products.

Operating expenses for the first quarter of 2009 increased 61.7% to \$1.9 million compared to \$1.2 million in the same period of 2008. Selling expenses contributed to the greatest increase for the

China Pharma Holdings, Inc.

period, increasing 78.4% to \$602,760 from \$337,792 in the first quarter of 2008, which is due to the Company's substantial expanding investment in distribution channels and overall marketing efforts. Allowance for bad debt was \$774,932 compared to \$472,975 the same period in 2008. The 63.8% increase was due to the majority of products were sold to state-owned hospitals, whose payments are slow, but reliable. General and administrative expenses were \$488,047 in the first quarter of 2009, up from \$342,818 in the first quarter of 2008. This increase reflects higher operating expenses that occurred as a result of expanded business operations.

Operating income for the first quarter of 2009 totaled \$4.1 million, compared to \$4.7 million for the same period in 2008.

Net income for the first quarter of 2009 was \$3.7 million, compared to \$4.2 million reported in the same period of 2008. Diluted earnings per share were \$0.09 in the first quarter of 2009, compared to \$0.11 in the first quarter of 2008. The EPS calculation is based on 42.3 million fully-diluted shares, increased from 37.3 million shares in the prior year period.

China Pharma's President and CEO, Ms. Zhilin Li, stated, "We are pleased to report a quarter with continued growth during the global economic crisis. Our increased sales of new and existing products contributed to stable growth in the first quarter. We are confident that the recent decline in purchase orders from bulk buyers will reverse, and our revenue growth will return to the higher levels enjoyed previously. Combined with our increased marketing efforts and distribution capabilities, we anticipate improved margins and profitability in 2009."

Balance Sheet

As of March 31, 2009, the Company had cash and cash equivalents of \$5.2 million, which represented 6.4% of total assets; compared to \$0.7 million in the same period for 2008, which represented 1.4% of the total assets. Compared to the position of December 31, 2008, this was a decrease of \$1.8 million. This was primarily due to the investing activities in new drug development in the first quarter of 2009.

Business Update

- On April 30, 2009, the Board of Directors appointed Mr. Frank Waung to Chief Financial Officer, and nominated Ms. Heung Mei Tsui to join the Board.
- On February 11, 2009, the Company announced the initiation of clinical trials for the generic version of the leading hypertension drug Candesartan.
- On January 12, 2009, the Company announced that China's State Food and Drug Administration ("SFDA") approved the production of Tiopronin Enteric-Coated Capsules. Tiopronin is listed in the National Medical Insurance Program, thus allowing patients to obtain reimbursement.

China Pharma Holdings, Inc.

- The expansion of our dried powder production line is complete and production has commenced. The new capacity will allow us to meet growth in demand for dried powder formulation products over the next few years.

Financial Guidance

While healthcare reform will likely cause changes to the competitive landscape of pharmaceutical market in China, we expect 20% top line growth in 2009 based on our existing product portfolio and new products, as well as our efforts to drive market share and expand our distribution network.

Ms. Li concluded, "In the first quarter of 2009, we saw great potential from our newly-launched products and strong demand for our existing products. Our increased marketing efforts and distribution expansion will boost future growth in the rest of 2009. We continue to expect China's healthcare reform to bring real and significant change to the Chinese pharmaceutical industry. China Pharma is well-positioned to quickly adjust its marketing and product strategy according to the new regulatory environment when it becomes certain, and to drive shareholder value."

Conference Call

The Company will hold a conference call at 8:00 am EST on May 15, 2009 to discuss fiscal first quarter 2009 results. Listeners may access the call by dialing 1-800-901-5241 or 1-617-786-2963 for international callers, access code: 38020856.
