China Pharma Holdings, Inc. Reports Third Quarter 2014 Financial Results

HAIKOU CITY, China, November 14, 2014 - China Pharma Holdings, Inc. (NYSE MKT: CPHI) ("China Pharma" or the "Company"), an NYSE MKT listed corporation with its fully-integrated specialty pharmaceuticals subsidiary based in China, today announced its financial results for the three months ended September 30, 2014.

Third Quarter Highlights

- In November 2014 the CFDA completed their process of the GMP certification for our new facility and issued the GMP certificate to enable us to commence manufacturing our liquid injectable and dry powder injectable product lines.
- Revenue for the three months ended September 30, 2014 was \$5.5 million, a decrease of 31% from \$8.1 million for the three months ended September 30, 2013.
- Losses from Natural Disaster of \$2,275,593 relating to a tropical typhoon during the three months ended September 30, 2014
- Operating loss for the three months ended September 30, 2014 was \$6 million, compared to operating loss of \$2.7 million in the same period in 2013.
- Net loss for three months ended September 30, 2014 and 2013 were \$6.3 million and \$2.3 million, respectively.

In November 2014 the CFDA completed their process of the GMP certification for our new facility and issued the GMP certificate to enable us to commence manufacturing our liquid injectable and dry powder injectable product lines. We have commenced the operation on the two product lines as of the date of this report.

typhoon caused considerable damage to our manufacturing facilities and inventory. Part of the warehouse was flooded; some damage was caused to our new facility while the water and

electricity supply was suspended for several days causing a brief halt to our production activities. We have taken emergency measures to restore and recover post-typhoon. The Company's losses from natural disaster were approximately \$2.3 million (RMB14.2 million) for the nine months ended September 30, 2014. The Company received insurance compensation of \$0.01 million as only the new plant building was insured and the damage to it was minor. The old plant has restored to the operational mode at the end of July.

Third Quarter 2014 Results

Revenue for the three months ended September 30, 2014 was \$5.5 million, a decrease of 31% from \$8.1 million for the three months ended September 30, 2013. This was mainly due to the production suspension of our injectable production lines this year.

For the three months ended September 30, 2014, our cost of revenue was \$4.0 million, or 73% of total revenue, which represented a decrease of \$1.8 million from \$5.8 million, or 73% of total revenue, in the third quarter of 2013. The decrease in cost of revenue in the third quarter of 2014 was mainly due to the decrease in purchasing prices of certain raw materials due to market fluctuations.

Gross profit for the three months ended September 30, 2014 was \$1.5 million, a decrease of \$0.7 million, from gross profit of \$2.2 million in the same period of 2013. Our gross profit margin in the third quarter of 2014 was 27% compared to 28% in the same period of 2013. Looking forward, we expect pricing pressures on most products, while our new products have and will support the overall gross margin. For instance, Candesartan, the product we launched last November, is sold at a price that supports our gross margin

Our selling expenses for the three months ended September 30, 2014 were \$0.7 million, compared to \$0.9 million in the same period last year. Selling expenses accounted for 13% of the total revenue in the third quarter 2014 compared to 11% in the same period in 2013. Due to many adjustments in our selling processes under healthcare reform policies, despite the decrease in sales, we still require comparable personnel and expenses to maintain our revenue and collection of accounts receivable.

Our general and administrative expenses for the three months ended September 30, 2014 were \$0.42 million, an increase of \$0.05 million from \$0.37 million in the same period of 2013. General and administrative expenses accounted for 8% and 5% of our total revenues in the three months ended September 30, 2014 and 2013, respectively.

Our bad debt expenses for the three months ended September 30, 2014 and 2013 were \$3.9 million and \$3.2 million, respectively. The increase in bad debt expenses was mainly due to the increase in the aged accounts receivable.

We suffered losses of \$2,275,593 relating to a tropical typhoon during the three months ended September 30, 2014 as discussed more fully in Note 2 to the condensed consolidated financial statements. There was no comparable expense in the prior year period.

Our operating loss for the three months ended September 30, 2014 was \$6 million, compared to operating loss of \$2.7 million in the same period in 2013. The increase in operating loss was primarily due to the decrease in sales, the increase in bad debt expense and the losses from natural disaster recognized during the three months ended September 30, 2014.

For the three months ended September 30, 2014 and 2013, our income tax rate was 15%. Income tax expense was \$0.02 million for the three months ended September 30, 2014, and income tax benefit was \$0.4 million for the three months ended September 30, 2013. The income taxes recognized for the three months ended September 30, 2014 and 2013 were related to net changes in long-term deferred tax assets and liabilities. We renewed our "National High-Tech Enterprise" status ("National HT Status") from the PRC government in the third quarter of 2013. With this designation, for the years ended December 31, 2014, 2015 and 2016, we will continue to enjoy a preferential tax rate of 15% which is notably lower than the statutory income tax rate of 25%.

Net loss for three months ended September 30, 2014 and 2013 were \$6.3 million and \$2.3 million, respectively. The increase in net loss was primarily due to the decrease in sales, the increase in bad debt expense and the losses from natural disaster recognized for the three months ended September 30, 2014.

Six Months Results

For the nine months ended September 30, 2014, our sales revenue decreased by \$5.6 million, or 23%, to \$18.8 million from \$24.4 million in the corresponding period of 2013.

Gross profit for the nine months ended September 30, 2014 was \$6.6 million, compared to \$2.8 million in the same period of 2013. Gross profit margin for the nine months ended September 30, 2014 and 2013 were 35% and 12% respectively. Without the effect of inventory obsolescence for the nine months ended September 30, 2013, management estimates that our gross profit would have been approximately \$6.5 million, and gross margin would have been 27%. The increase in gross profit margin was mainly due to market fluctuation and sales price increases in certain products; in addition, more high-margin products were sold in the first nine months of 2014 compared to the same period a year ago.

Our operating loss for the nine months ended September 30, 2014 was approximately \$16.85 million, compared to \$10.45 million for the same period in 2013, which represented a deterioration of \$6.40 million. The deterioration in operating income performance was primarily due to lower revenue, higher bad debt and R&D expense and losses from natural disaster in the current period compared to the corresponding period one year ago.

Our net loss for the nine months ended September 30, 2014 and 2013 was \$17.4 million and \$9.6 million, respectively. The deterioration in net income performance was primarily due to lower revenue, higher bad debt expense R&D expense losses from natural disaster in the current period as compared to the corresponding period one year ago.

Financial Condition

Our cash and cash equivalents were \$4.3 million, which represents 3% of our total assets as of September 30, 2014, as compared to \$6.0 million, which represents 4% of our total assets as of December 31, 2013.

At September 30, 2014, our accounts receivable was \$30.6 million, a decrease of \$14.5 million from \$45.1 million at December 31, 2013. The decrease was due to our enhanced collection efforts as well as the increased allowance for doubtful accounts at September 30, 2014 compared to December 31, 2013

Net cash provided by operating activities was \$2.6 million in the nine months ended September 30, 2014 compared to \$3.7 million for the same period in 2013.

Conference Call

("China Pharma") (NYSE MKT: CPHI), an NYSE MKT listed corporation with its fully-integrated specialty pharmaceuticals subsidiary based in China, today announced that it plans to hold its third quarter 2014 earnings conference call on Friday November 14, 2014 at 8:30 a.m. ET. Listeners may access the call by dialing 1-800-742-9301or +61-283-733-610 for international callers, Conference ID#27452300 webcast will also available through Α be CPHI's http://www.chinapharmaholdings.com. A replay of the call will be accessible through November 21, 2014 by dialing 1-855-452-5696 or +61-281-990-299 for international callers, Conference ID#27452300

About China Pharma Holdings, Inc.

China Pharma Holdings, Inc. is a specialty pharmaceutical company that develops, manufactures and markets a diversified portfolio of products focused on conditions with a high incidence and high mortality rates in China, including cardiovascular, CNS, infectious, and digestive diseases. The Company's cost-effective, high-margin business model is driven by market demand and supported by eight scalable GMP-certified product lines covering the major dosage forms. In addition, the Company has a broad and expanding nationwide distribution network across all major cities and provinces in China. The Company's wholly-owned subsidiary, Hainan Helpson Medical & Biotechnology Co., Ltd., is located in Haikou City, Hainan Province. For more information about China Pharma Holdings, Inc., please visit http://www.chinapharmaholdings.com. The Company routinely posts important information on its website.
